

Portability

OR

Larger screen

STEP ONE:
Choose your device type

Phones

A lightweight and portable solution, great for inspections and data collection. Ensure your mobile device operates on Android™ 9 with ARCore support, or on iOS 13.

Tablets

Enhanced visualization and collaboration. Ensure your mobile device operates on Android 9 with ARCore support, or on iOS 13.

STEP TWO:
Choose your functionality

Scanning

Scanning

Apple iPhone

- 3D scan with LiDAR using Apple® iPhone Pro and Max models 12 and newer
- Best performance with complex 3D models

Trimble TDC6

- Performance in hot/cold environments
- Hot swappable battery for all day use
- Excellent screen visibility

Android phone

- Multi-purpose
- Compatible with other Trimble® Apps such as TerraFlex® and Siteworks

Apple iPad

- 3D scan with LiDAR using Apple iPad Pro models 2020 and newer
- Best performance with complex 3D models

Android tablet

- Multi-purpose
- Compatible with other Trimble Apps such as TerraFlex and Siteworks

STEP THREE:
Choose your form-factor

EDM

Trimble HPS2 handle

- Compatible with phones
- Most rugged configuration
- Includes integrated DA2 GNSS receiver
- Includes integrated EDM (electronic distance measurement) for measuring remote points
- Use handheld, or add a 1.3 m rod for added accuracy when measuring GNSS points

25 cm rod extension

- Compatible with both phones and tablets
- Most flexible configuration
- Use with or without a separate DA2 GNSS receiver
- Use handheld, or add a 1.3 m rod for added accuracy when measuring GNSS points

2 m range pole

- Compatible with both phones and tablets
- Ideal for GNSS workflows with a separate DA2 GNSS receiver

Standalone handheld

- Compatible with phones or tablets
- Ideal for indoor applications
- Not compatible with GNSS or EDM measurements

STEP FOUR:
Choose your subscription

Trimble SiteVision Universal Subscription

- Available as an annual license for the best value, or as a monthly license for seasonal work
- Includes a subscription to Trimble Connect® Business Premium for data management and collaboration
- Includes a subscription to Trimble Catalyst™ for SiteVision®, a GNSS positioning service that enables centimeter accuracy for the DA2 GNSS receiver

Trimble SiteVision Mobile Subscription

- Available as an annual license for the best value, or as a monthly license for seasonal work
- Includes a subscription to Trimble Connect Business Premium for data management and collaboration
- Works alongside a separate Trimble Catalyst subscription or a Trimble Works/Works Plus subscription powered by the DA2 GNSS receiver
